Professional Summary

Front-End Developer with practical experience building responsive, accessible websites using HTML, CSS, and JavaScript. Experienced in deploying websites, implementing technical SEO best practices, optimising performance, and managing projects from concept to deployment through freelance client work.

Currently operating under Nazarite Digital Solutions, delivering custom websites for small businesses while bringing strong communication, problem-solving, and customer service experience into software development.

Seeking a remote Junior Front-End Developer opportunity where I can contribute to a collaborative development team while continuing to grow as a developer.

Employment History

Freelance Web Developer & Digital Services Specialist

Nazarite Digital Solutions | Remote | June 2026 – Present

- Designed and developed responsive websites using HTML, CSS, and JavaScript
- Built mobile-first, user-friendly interfaces optimised for performance and accessibility
- Implemented technical SEO best practices, including metadata, canonical tags, sitemaps, and clean URL structures
- Deployed and managed websites using GitHub, Vercel, and Cloudflare
- Troubleshoot, maintained, and enhanced websites to improve functionality and user experience
- Collaborated with clients to gather requirements and deliver tailored web solutions
- Created custom landing pages and business websites focused on usability and conversion
- Managed end-to-end website projects from design to deployment

Senior Customer Service Advisor

Virgin Media O2 | Birmingham, United Kingdom (Hybrid) | Mar 2025 – June 2025

- Managed high-volume inbound customer calls, delivering efficient resolution of queries and maintaining strong customer experience standards
- Handled customer account queries including billing issues, payments, and contract changes
- Achieved strong customer satisfaction (CSAT) scores based on post-call customer feedback and ratings

- Demonstrated effective first-contact resolution by resolving queries without unnecessary call transfers where possible
- Accurately logged and updated customer information using CRM systems
- Worked in a regulated contact centre environment, adhering to strict compliance and data protection standards
- Supported customers with additional accessibility needs, providing clear, patient, and empathetic communication

TEFL Teacher

Pangea Outsourcing Services | Remote, South Africa | Feb 2023 - May 2023

- Delivered structured English lessons in a remote environment to international learners, ensuring clear communication and understanding
- Adapted communication style to suit different individuals, learning needs, and cultural backgrounds
- Provided clear, supportive feedback to help improve performance and understanding
- Managed virtual sessions requiring strong communication, time management, and customer engagement skills

Administrator

ABC Springs | Umbogintwini, KwaZulu-Natal, South Africa | Jan 2015 - Aug 2022

- Delivered customer service by handling queries via phone, email, and written correspondence in a fast-paced environment
- Maintained accurate customer records and ensured information was kept up to date
- Processed customer orders, prepared quotations, and completed administrative documentation
- Provided hardware and software troubleshooting to support business operations
- Coordinated with suppliers and internal departments to resolve customer issues
- Prioritised administrative tasks to support the efficient day-to-day running of the business

Horticulturist

Heartland Leasing | Umbogintwini, KwaZulu-Natal, South Africa | Jan 2010 - Dec 2010

- Conducted environmental fieldwork in a nature reserve, identifying indigenous and invasive plant species, setting up transects, and compiling structured Excel datasets including tree counts, heights, and species distribution

Garden Centre Assistant

Kingfisher Creek Nursery | Bluff, KwaZulu-Natal, South Africa | Jan 2008 - Dec 2008

- Provided customer service in a retail environment, assisting with product enquiries, sales support, and cash handling

Projects

Spring Manufacturer Website

- Developed a responsive business website using HTML, CSS, and JavaScript
- Implemented technical SEO including metadata, canonical tags, sitemap.xml, and robots.txt
- Optimised for mobile devices and page performance
- Live-Demo: demo-xyzsprings-website.vercel.app

Business Landing Page

- Built a responsive marketing website with modern layouts using CSS Grid and Flexbox
- Deployed using Vercel and managed source code with GitHub
- Live Site: nazaritedigitalsolutions.com
